

One English mile is equivalent to 1.609344 Km.

This is solely at your discretion; only be careful and do not stop for long.

You can obtain information from local police officers that are normally found at street crossings. If none are found, you can ask a store merchant.

Avoid asking other people in the stores. You may also ask directions at taxi depots or bus drivers, or any public official.

DO NOT ACCEPT transport from anyone at anytime. Instead, if unsure, contact your Group Leader or Tour Leader via cell phone.

Athletic and sport shoes will carry conversion labels on the inside of the shoe. We suggest you carry the conversion table when buying clothing; better yet, try on clothing and shoes before buying.

CONVERSION TABLES

SIZES

Italy	40	42	44	46	48	50	52	54	56	58	60	62	64	66
